# Innovathon'21

## REGISTRATION GUIDE

Please follow these steps for a smooth registration process:

1.  Click on "Apply with Devfolio" on our website(https://www.innovathon21.tech) OR search for "Innovathon-21" on Devfolio.
2. Create a new account(preferably with **DTU-provided e-mail**). If you encounter any issues while creating an account with the DTU-provided e-mail, you can use other ones.
3. Log in to your Devfolio account.
4. Fill in the necessary details in the registration form.
5. **NOTE:** The application form asks for a submission PDF before you get associated with a team. At this stage, you may submit any dummy submission simply to proceed with the application. This PDF can be updated later and only the one submitted by the team leader shall be considered for evaluation.
6. Fill in your **DTU Roll no.** and **final submission PDF** according to the given submission format.
7. You can now proceed either individually or create/join a team.
8. **You CANNOT change the team, edit team members or the submitted idea after submitting your application. So, make sure all your team members have joined the team before submitting the idea.**

**NOTE:** Only the team leader(creator of the team) can submit the application on behalf of all the team members.
